### Information

Upon opening the box, you'll find the solar panel, an exterior mounting bracket, and a hardware bag.

**STEP 1.** Remove the plastic bracket from the back of the solar panel (for window installation)

**STEP 2.** On the front of the solar panel, place the included double-sided tape on each end.

- ① To conceal the solar panel, mount flush against the window, behind the shade tube. The excess wire can be concealed behind the shade tube.
